### **Recommendations and Conclusion:**

1. The SRC should review and workshop the V, VI, VII and completeness draft comments and consider the following issues:
  - a. Plan corrections and updates to be completed by the applicant
  - b. Applicant to provide the property deed. Purchase and Sale Agreement from current owner to Morency provided.
  - c. Proposed building addition and dumpster must meet lot line setback requirements. Dumpster screening notes need revisions.
  - d. Parking space revisions to be addressed. 29 spaces are required; and 30 are proposed. 2 ADA compliant spaces are required.
  - e. Parking lot stripping and traffic flow directional arrows proposed to be revised.
  - f. KKWWD and WSD capacity letters have been provided.
  - g. Tent area footprint size not noted. If tent is to remain erected for periods exceeding 10 days the tent area needs a SF noted and further details outlined. Will the tent have music or bands, restrictions on seating needed, etc.
  - h. An updated boundary survey is required due to the proposed construction being within 10 feet of the 15' setback requirement. The legal status and location of this private way are in question.
  - i. SRC to consider granting a waiver of depicting property contours.
  - j. It is recommended a solid 6' tall fence or 6' tall vegetative screen be considered between the outside dining area and the existing private way. The SRC to review the screening requirements.
