Recommendations and Conclusion:

1. The SRC should review and workshop the V, VI, VII completeness and compliance review comments:
 - a. Confirm minor plan changes/ notation has been addressed by the applicant;
 - b. The pavement/concrete identified behind the motel building was found to be pre-existing and grandfathered.
 - c. The SRC to review landscape buffering and screening requirements:
 - i. A 6' tall solid fence adjacent to the new entrance drive shall be installed no later than June 1, 2018. See Note 11.
 - ii. Two trees along Route One near the north side of the entrance to this property shall remain. These trees are not within the 15' wide landscaped buffer along Route One. A shade tree to be planted in the grass/landscaped area in front of the building no later than June 1, 2018. See recommended note 11.
 - d. SRC to consider not requiring capacity letters from the WSD and KKWWDD as the proposed pavilion will have no such utility connections.
 - e. Consider finding the application compliant if the above items are satisfactorily addressed
 - f. Consider approving and signing the Findings of Fact & Decisions and site plan.
