Subject: Dorfield Lane, Wells – Water Main Extension

Dear Mr. Blake:

The purpose of this letter is to confirm that the proposed water main extension to serve the Wesley by the Sea Phase 3 project as depicted in the plan set titled “Wesley by the Sea Phase III”, last revised March 14, 2019, has been approved by the District.

Please note that the proposed development is within the recharge area of the District’s public drinking water supply, namely the Harriseckett Road Wells. Therefore, as a condition of approval of the water main extension the development shall have covenants designed to protect the public water supply as written in the “Declaration of Covenants and Restrictions – Preachers’ Aid Society of New England – Dorfield Lane Project, Wells, York County, Maine” drafted on April 12, 2019, to be recorded at the York County Registry of Deeds.

Preachers Aid Society of New England will be able to commence water main installation as soon as the Water Main Extension Agreement is signed by both parties, the inspection and engineering deposit has been paid, and a copy of the recorded Declaration of Covenants and Restrictions has been provided.

If you need any additional information, feel free to contact me.

Sincerely,

Jamie Paschal, P.E.
District Engineer
