

## IS YOUR WELL RUNNING DRY?

1> Call 211 and report it to help with documenting the Drought problem

2>Public drinking water is available to fill containers at the KKW Treatment Plant on Route One on the Wells / Kennebunk line up to 5 gal jugs (**free**) or in larger containers further up the road on the left for a minimal cost.

3> Resources on funding new wells- USDA Rural Development Program 207 -883-0159 ext 4
