Commenter's Name:	Document Name:	Page #:	Paragraph #:	Your comment or question:
WEAC - JQ	Flood Hazard Mitigation	6	Add # 9	Form a climate action plan, hire a sustainability coordinator and form a climate action committee to assist with the implementation of these goals
WEAC - JQ	Flood Hazard Mitigation	7	Add # 8	Develop a plan to mitigate climate impacts on tourism. Challenges posed by climate change and sea level rise are not unique to Wells, but we do all share concerns about our coastline and its impact on our way of life and economy.
WEAC - JQ	Flood Hazard Mitigation	8	Add # 6	Work with regional and state agencies and organizations, including the Wells National Estuarine Research Reserve, to plan and implement programs which utilize seeding/planting grasses and trees to protect the shoreline, introduce certain species of fish and crustaceans which may do likewise, and any other programs which may enhance natural shoreline sustainability. We all share a concern for our shoreline and we have experts who work right here.
WEAC - JQ	Flood Hazard Mitigation	9	# 6	add: sea acidity and temperature increases
