### **Recommendations and Conclusion:**

- 1. The Planning Board should consider comments offered during the public hearing.
- 2. The Planning Board should review and workshop the V, VI, VII and completeness draft comments and consider the following (see all review checklists for all review comments and note recommendations):
  - a. Recommended plan markups, notes and labels to be addressed (bold property line, net area, add notes, solar array notes, etc)
  - b. Parking:
    - i. CEO does not recommend parking for the solar array use. The 18 spaces provided on the property are sufficient to serve the bank and solar arrays.
    - ii. Bank to re-stripe all parking spaces to become 90 degree angle spaces and to provide for an 8' wide handicap accessible parking aisle.
    - iii. Bank drive-thru stacking spaces shown
    - iv. Parking space restriping to be done no later than 6-1-22. **Planning Board to make a determination**
  - c. A note is recommended that the rows of solar array racking shall be surveyed located prior to installation to ensure setbacks from the Depot Brook and property lines are met.
  - d. Property 2 foot contours shown.

- e. Landscaping determinations to be considered after the public hearing:
  - i. A 15 foot wide landscaped buffer is required along Route 109. The plan identifies grass, two shade trees, a shrub and various other landscaping along Route 109. Planning Board to determine if the Route 109 15' wide landscaped buffer is suitable.
  - ii. Existing vegetation and a fence are noted along lot 39. This fence to be depicted on the plan; is it on lot 39 or the subject property? Planning Board to determine if this screen is suitable for lot 39 after the public hearing.
  - iii. 6'-8' tall arborvitae plantings are proposed adjacent to Lot 41. Existing Rhododendron to be maintained 3' to 6' in height. Planning Board to determine if the vegetation that exists/proposed is suitable for lot 41 after the public hearing.
  - iv. Minimal vegetation exists on the subject property along Depot Brook for lots 50 and 38-A1. The nearest home, on Lot 38-A-1, is about 180 feet from the subject property and will be over 200 feet from the solar arrays proposed. Planning Board to determine if the vegetation that exists is suitable for lots 50 and 38-A1 after the public hearing.
3. The Planning Board to continue the workshop to the next meeting so that plan revisions can be completed and Findings of Fact & Decisions prepared.
