** CAUTION EXTERNAL EMAIL **

Hello,

I am a land abutter and received the planning abutter notice. I was under the impression there was going to be a ROW between lots 7 & 8 for the Town to access the WCC land? I do not see that on the drawing that was mailed. I did read that it was ?relocated? so I was hoping you could show me where that will end up. I was also wondering the elevation of the lots 7 & 8. Lastly is it possible to get a fence installed where the Goldmark Land abuts mine? I am at 67 Devin lane.

Thank you for your time and I look forward to the site walk once it is scheduled.
