RE: DEP APPLICATION #L-29922-TC-A-N, WELLS

Dear Austin:

Your client's application for a Natural Resources Protection Act permit was received by the Department of Environmental Protection and found to be acceptable for processing on June 17, 2022. Acceptance of the application does not preclude the Department from requesting additional information during processing. Your client's application has been given the above reference number.

The project will now be examined to determine whether a license can be issued. The Department expects to issue a decision on the application by August 1, 2022. We will do our best to issue a decision sooner, if possible; we also may require additional time if, for example, the need for significant additional information is identified during review of the application. No construction related to the proposed activities currently under review may be started prior to receiving a final decision from the Department.

Please feel free to contact me at (207) 699-9352 or via email at alex.groblewski@maine.gov if you have any questions regarding this project.

Sincerely,

Alex Groblewski, Project Manager
Bureau of Land Resources
