Dear Mr. Connors,

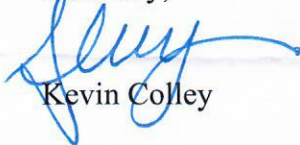

We abut Seaglass Village. We received the Site Plan Application 145-74B/C/D/G. The Condominium Association is adding on – improving their operation. I wish the Association would repair/improve the existing fence between our properties prior to other projects.

Several years ago I requested the association fix the falling down part of the fence where it takes a right angle jog about half way up our driveway. I also pointed out that about 50 feet of fence is located on our property and asked that when replacing/repairing the fence that they move it on to their property. There is no immediate rush to move the inadvertently located fence, but I would expect the fence to be maintained and when falling apart be repaired.

I received no response to my polite letter last time. Perhaps you will be a bit more responsive.

Thank you. You may reach me at 207-337-8190 if you have questions or concerns.

Sincerely,

Kevin Colley
